

RECLAIMER CHAINS WITH SEALED CHAIN SYSTEM

TYPE **SCS PO**

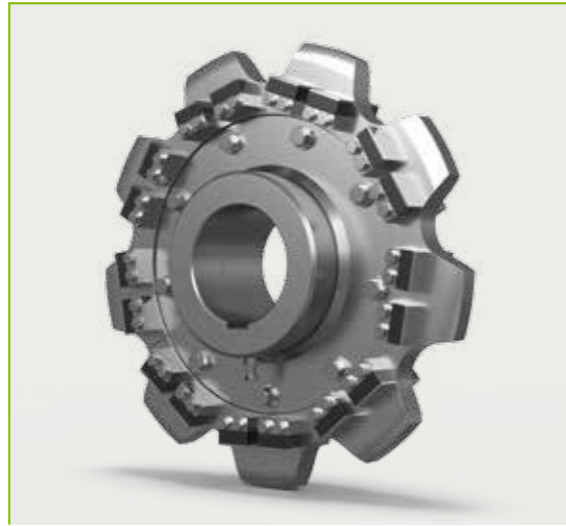

Maintenance free
for continuous
non-stop operation

New Product
Development

Bulk material

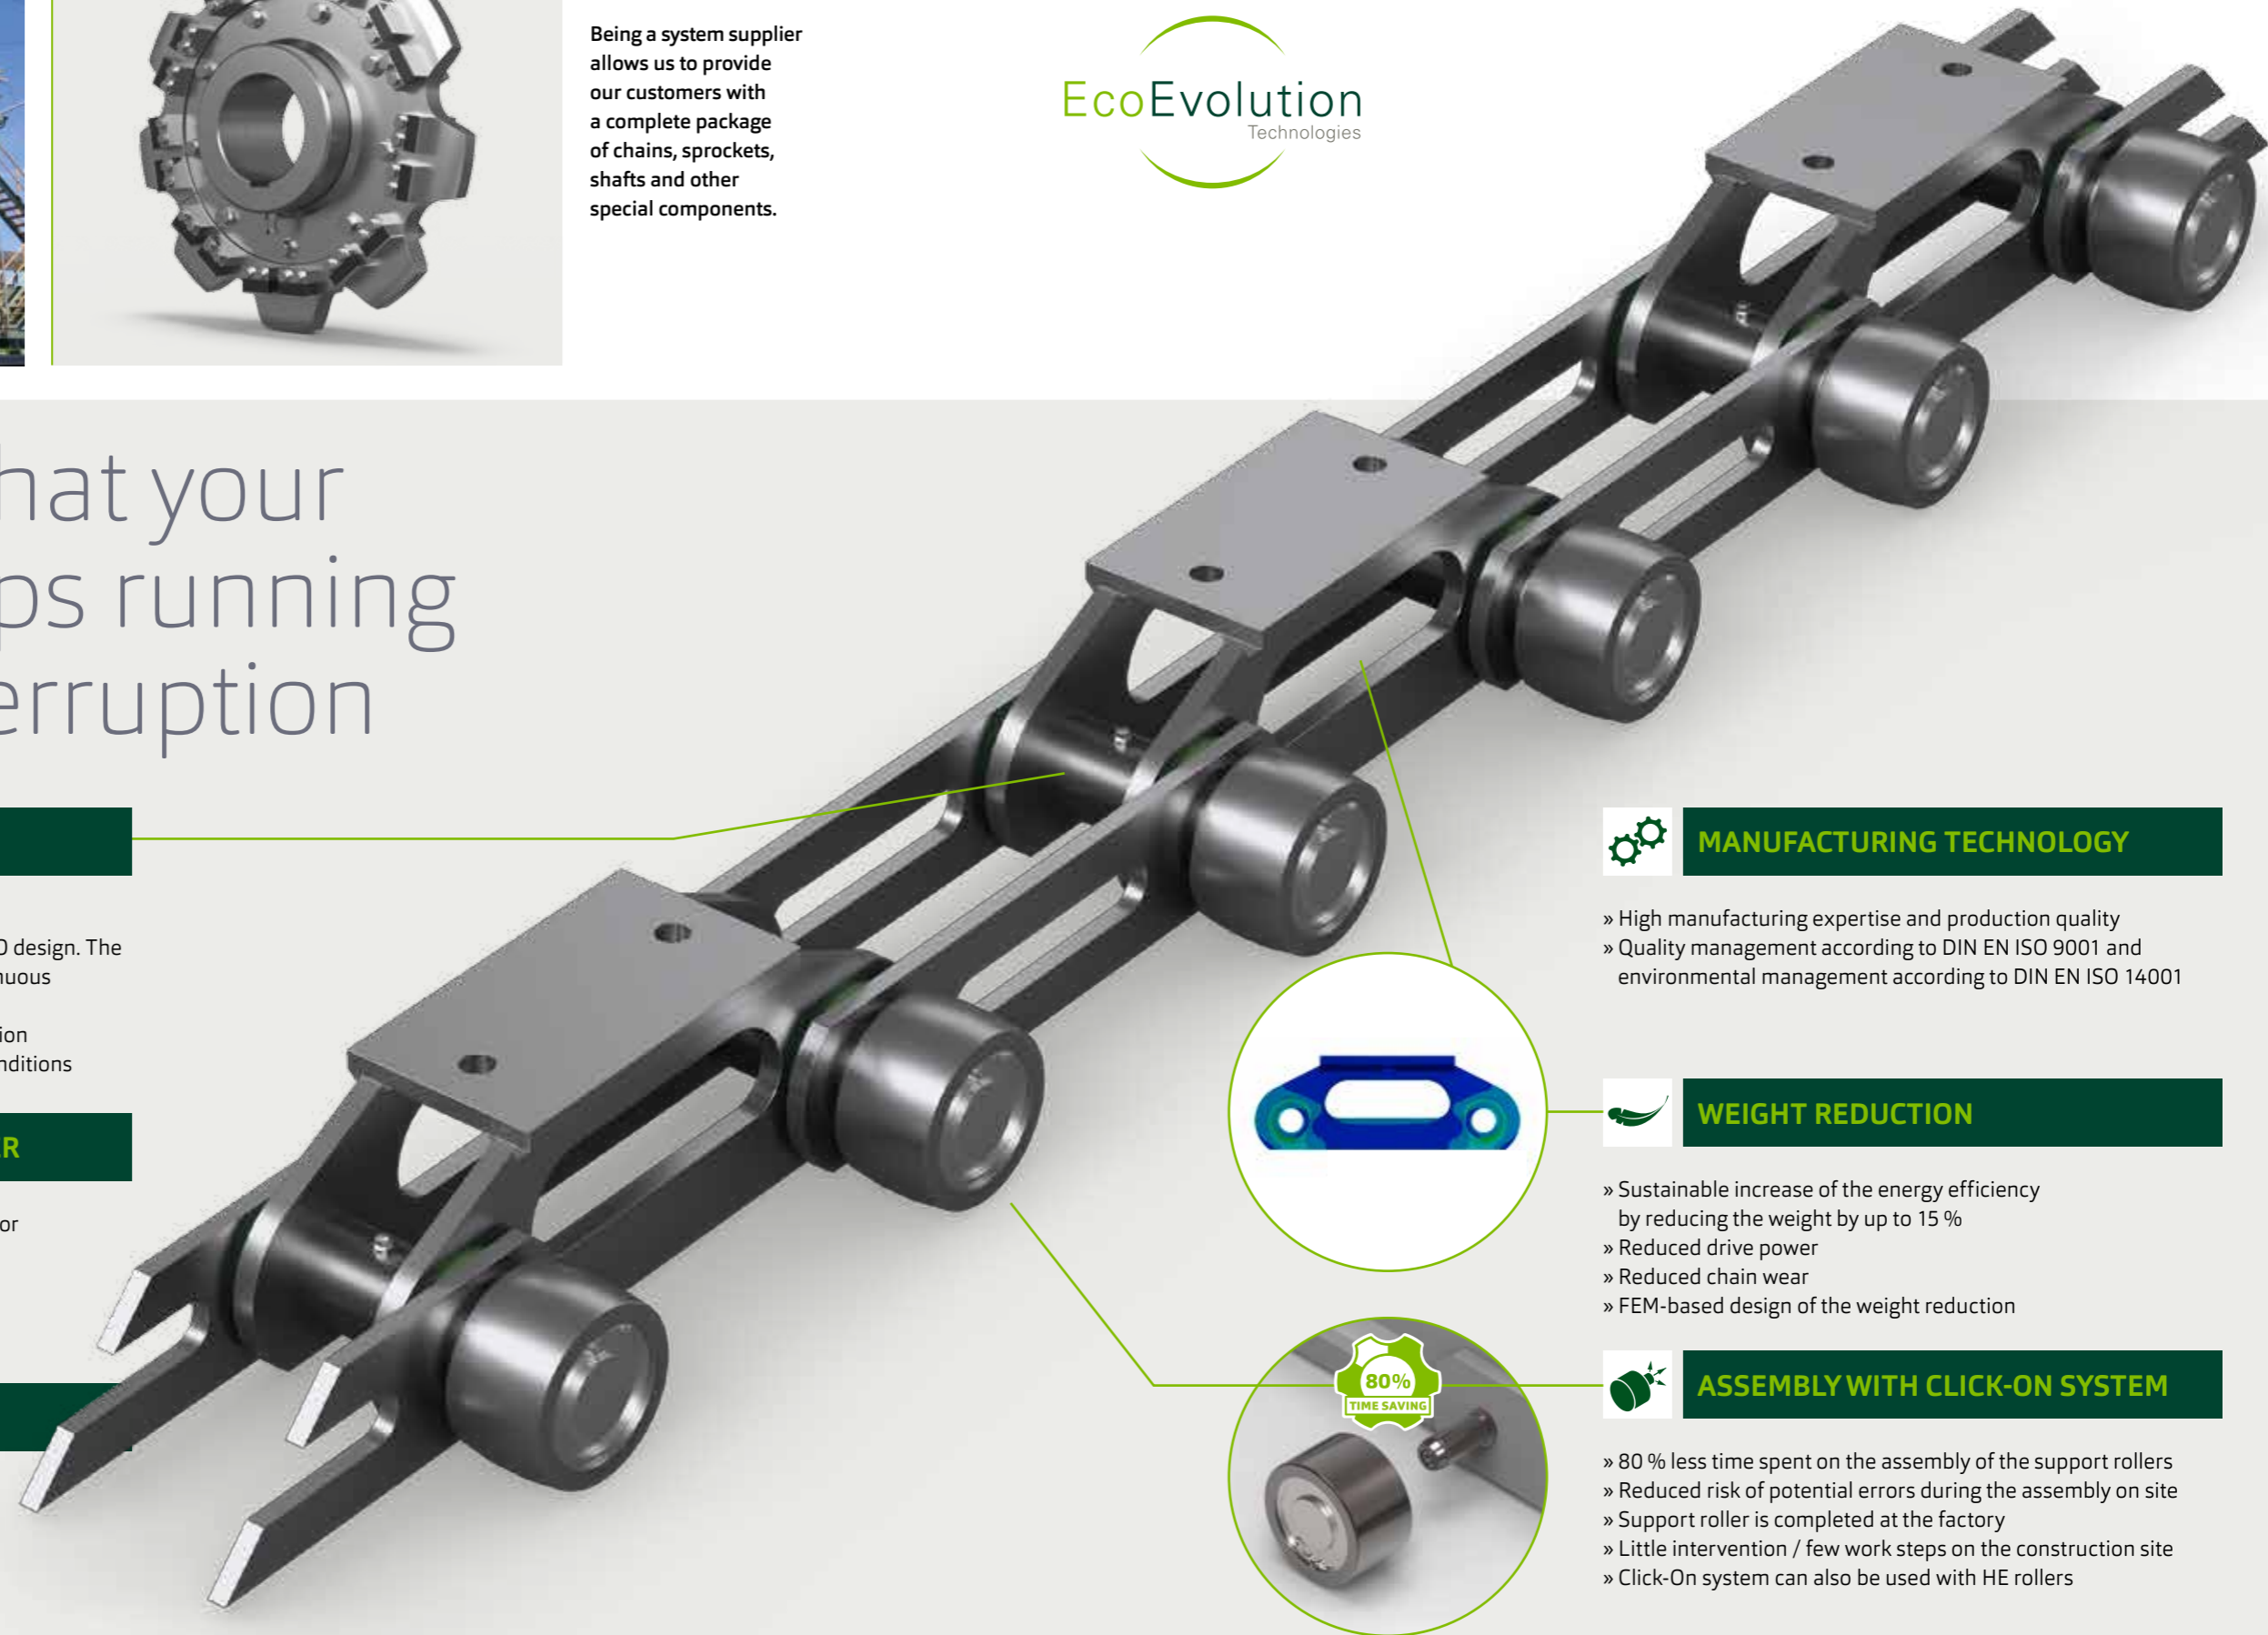

Being a system supplier allows us to provide our customers with a complete package of chains, sprockets, shafts and other special components.

To ensure that your system keeps running without interruption

SCS – SEALED CHAIN SYSTEM

- » **SCS PO – Permanently Oiled**
The chain joint is equipped with the special SCS PO design. The one hundred percent oil-tight system allows continuous maintenance-free operation.
- » Protects the sealed chain joint against contamination
- » Field-tested under the toughest environmental conditions

HEAVY ENVIRONMENT ROLLER

- » Maintenance-free support roller using an HE seal for extreme environmental conditions
- » Oil-tight support roller
- » Click-On required
- » Individual lubricant selection

SERVICE

- » Development based on individual requirements
- » On-site assembly
- » Quality inspections
- » Field service

MANUFACTURING TECHNOLOGY

- » High manufacturing expertise and production quality
- » Quality management according to DIN EN ISO 9001 and environmental management according to DIN EN ISO 14001

WEIGHT REDUCTION

- » Sustainable increase of the energy efficiency by reducing the weight by up to 15 %
- » Reduced drive power
- » Reduced chain wear
- » FEM-based design of the weight reduction

ASSEMBLY WITH CLICK-ON SYSTEM

- » 80 % less time spent on the assembly of the support rollers
- » Reduced risk of potential errors during the assembly on site
- » Support roller is completed at the factory
- » Little intervention / few work steps on the construction site
- » Click-On system can also be used with HE rollers

Designed & manufactured by KettenWulf

The brand KettenWulf is known around the world for their high-quality products. Our success is based on the very high level of vertical integration of our production and on our product design. Customized functionality, the pursuit of perfection, the right instinct for shapes and materials which are ideally suited for their particular environment and ambient conditions.

Competence, experience, efficiency and a high level of commitment are the basis of our work. The use of our products ensures your long-term and sustainable success. We therefore offer you comprehensive services including design and development right from the start. This makes us your competent partner in conveying & drive technology. Both the depth of advice and the quality of our products are tailored individually to your preferences and requirements.
